STATE CLIP.

Cigar Stub Causes a Fire.

ELKHART, Ind., Aug. 14.—A man who carelessly threw a cigar stub into dry grass as he was passing Edward Thompson's farm, six miles north of Elkhart, started a fire that burned \$2,500 worth of property, on which there was \$1,100 insurance.

Postoffice Robbed.

LAPORTE, Ind., Aug. 13.—The postoffice at Michigan City, Laporte county, was entered by burglars, who forced open steel vault and steel safe, securing \$800 in stamps and \$100 in cash. The stamps ranged in value from 1 to 10 cents, half of them being the Pan-American issue.

Well Supplied With Good Roads.

VALPARAISO, Ind., Aug. 13.—The county commissioners have awarded the contract for building six and one-half miles of gravel road in Liberty township to John B. Lindahl for \$21,480. When this contract is completed Porter county will have eighty miles of gravel roads built in the last two years.

Assaulted by Chicken Thieves.

ELKHART, Ind., Aug. 13.—Norman Fraleigh, a farmer, was awakened by a burglar alarm attached to his hen house, and as he rushed out, gun in hand, he was seized by three men, who broke his gun and gave him a severe beating. Mrs. Fraleigh also being assaulted as she ran to her husband's assistance. The robbers then drove rapidly away.

Oldest Saloonkeeper Retires.

LAPORTE, Ind., Aug. 12.—John Mehl has probably been engaged in the saloon business for a longer continuous period than any man in Indiana and has decided to close his saloon, on Monroe street, with the expiration of his license on Sept. 1. Mehl is over 81 years old and has been in the saloon business in his present location since 1864.

Explosion Caused by Bicycle Lamp.

SOUTH BEND, Ind., Aug. 14.—Mrs. Roland F. Ducomb, after cleaning clothes by the liberal use of gasoline in a closed room, used a bicycle lamp for illuminating purposes, and brought it into the room, supposing that the lamp was so closed that there would be no danger. A terrible explosion followed, and Mrs. Ducomb was fatally burned, while the room was wrecked.

Got Thoroughly Kissed.

EVANSVILLE, Ind., Aug. 14.—Robert F. Foss, of Tazewell, Ind., boasted recently in public that he had never been kissed. He was held up on the street by six damsels, who showered kisses upon his face. Five held him while one kissed and each took her turn. Foss, when released, fled to a justice of the peace, and swore out warrants for assault. The fair ones are now under bond.

Rochester's Awakening.

ROCHESTER, Ind., Aug. 12.—Numerous improvements are to begin here within the next few weeks. Early in September the construction of a sewer system will be undertaken, and the Toledo & Chicago railroad will begin grading work the last of August. The survey for the Wabash & Rochester interurban line is to begin at once. Main street is to be paved and hotels and other improvements are to be made at Lake Manitou. Steps are being taken to have Rochester incorporated as a city.

Many Country Fires.

GOSHEN, Aug. 12.—Damage amounting to over \$1,200 was done by fire in the country near Goshen Saturday night and many farmers fought the flames until daylight so as to protect their corn fields near the woods where the fire raged. Everything is so extremely dry in the country that when a fire once has a headway it is impossible to extinguish the flames before heavy damage results. Conflagrations north, east and west of Goshen caused great excitement and a number of corn fields were swept by fire despite the efforts of many farmers who were aroused by the repeated ringing of dinner bells.

Indiana Corn Prospects.

INDIANAPOLIS, Aug. 12.—State Statistician Johnson has withdrawn from his statement published a few days ago regarding the corn crop conditions in Indiana and Saturday declared that there will not be one-fourth of an average yield in Indiana this year. "There was some days ago," said Mr. Johnson, "a chance for the late corn, but my observations within the last few days and the reports that have reached my desk lead me to believe that the late corn cannot ripen now before the frost falls to spoil it. There is nothing hopeful about the situation. There will not be a quarter of last year's yield."

Forgery at Valparaiso.

VALPARAISO, Ind., Aug. 14.—Ex-Sheriff Joseph Sego was arrested yesterday afternoon on the charge of forging two notes, one for \$100 and the other for \$125, bearing the signatures of ex-Alderman Jacob Chartier of this city and Robert E. Biggart, a prominent farmer. He confessed his guilt and was placed in jail under a \$500 bond. Sego two months ago married a widow worth \$100,000. She refused to help him out of his trouble. Sego speculated on the Chicago board of trade and bet on the horse races. He has lost considerable money, much of which was borrowed from friends. Other forged notes will show up, it is claimed.

A Story of the Rebellion.

RENSSELAER, Ind., Aug. 13.—Mrs. Frances E. Hickman has discovered the whereabouts of her father, Edmund B. Appleton, who was supposed to have died forty years ago. He enlisted with an Illinois cavalry company during the civil war, and news of his death afterward reached his family. The family separated, the children going to various parts of the country. Appleton was taken prisoner and held until the close of the war, when he returned to his old home in Ohio and found his family had left. He married again and is now living near Locksburg, Ark., and is eighty-four years old. About a year ago Mrs. Hickman heard of the whereabouts of her brother, L. B. Appleton, for the first time in thirty years. He is a pastor in an Elkhart church.

Youthful Plunderers.

KOKOMO, Ind., Aug. 12.—A gang of sixteen child thieves was broken up by the police here Saturday. The boys, ranging in age from 8 to 11 years, banded themselves together for the purpose of wholesale plundering. Each carried a large bag, and passing themselves off as waste paper gatherers, visited offices and stores, where they helped themselves to everything in sight. Cash, gold pens, knives, shears, and other valuables were thrust into the sacks along with the paper. The little fellows carried on the depredations for ten days before they were suspected. Every night they met and divided the spoils. The leader of the juvenile plunderers, Fred Miller, is in jail. He made a full confession, revealing the names of his associates, some of whom have been arrested. Part of the stealings have been recovered.

Brings peace, comfort, mental and physical happiness to the whole family. If taken this month, Nothing half so good as Rocky Mountain Tea. 35c. J. W. Hess.

MAY NOT TESTIFY

Admiral Sampson Possibly Not to be Summoned in the Schley Trial—A Statement that Does Not Inform.

WASHINGTON, Aug. 14.—Admiral Sampson has not been summoned to appear before the Schley court of inquiry. There is a growing belief that he will not be called. Acting Secretary Hackett has been repeatedly asked if Admiral Sampson would be ordered to appear, but no information can be obtained on this point.

The acting secretary made a statement in regard to the appearance or non-appearance of Admiral Sampson which is chiefly notable for its lack of information. It is, in part:

"The court will convene on Sept. 12. What witnesses will be brought before the court is for the Admiral himself to decide. No one can possibly know what witnesses the court is going to summon before it."

"The judge advocate of the court on July 29 addressed a letter to Admiral Schley requesting the admiral to communicate with him in regard to the witnesses, if any of them were located at a distance from Washington, whom he might wish to have appear before the court."

"Admiral Schley responded with a partial list of those whom he thought he might be likely to wish present, stating that there would doubtless be others. He was told that he would have a right to call others as witnesses, and also informed that some of the persons named by him might possibly be called by the judge advocate."

THESE ANTEDATE THE INDIANS.

Records of an Ancient Race of Americans Brought to Light.

NEW ORLEANS, La., Aug. 13.—Dr. Gustav Lebsstein of Berlin, connected with the bureau of ethnology of Germany, passed through here yesterday on his way to Berlin after a six months' ethnological investigation in Sonora.

Dr. Lebsstein would not give the result of his discoveries in advance of his report to the German ethnological bureau, but he declared that they were of a startling nature, and indicated that he had discovered traces of the earliest race in America, long antedating the Indians. He visited the most mountainous portion of Sonora, believing it to be the oldest inhabited portion of America. In an almost inaccessible mountain gorge he found the remnant of a road, broad and well defined, showing the work of the graders and some evidences of having at some time been paved. It is almost certain from the clear indications that the road was built before the gorge was formed, and the gorge was not a sudden formation, but was evidently the product of erosion, that must have continued through several thousand years. At the end of this road was a high hill of debris from rich mines, the ore being obtained from the mountains by means of workings that can yet be traced.

There were evidences that the people that worked the mines from which the ore in question was taken were much further advanced in the arts of metallurgy than the old Spaniards, or, in fact, than any ancient people of whom there is a record.

JUBILANT IRON MASTERS.

Refusal of Western Men to Strike Gives Mill Men Hope.

PITTSBURG, Pa., Aug. 12.—The iron masters are claiming victory in the great steel strike.

They base their claim upon the refusal of the Amalgamated men at South Chicago, Joliet and Bay View to obey the general strike order of President Shaffer, and their success in maintaining operations in other plants where it was anticipated there would be serious trouble. The strike leaders meet the claims of victory with the assertion that their cause is making satisfactory progress, and that they will show themselves masters of the situation before the strike has progressed much further.

They do not conceal their disappointment at the refusal of their Western brethren to join with them in the strike, but none of the leaders would discuss the defection. President Shaffer refused to meet the newspaper men who sought him and kept within the seclusion of his home. The other leaders who were seen intimated that there would be developments throughout the week that would materially change the situation. They would not say, however, what they had in mind or how their cause was to gain in strength. It is said they were counting upon strong aid from the American Federation of Labor and other organizations of union labor, but these organizations have not given any public indication of what they will do.

GOMEZ DECLINES CANDIDACY.

The Old Cuban General Declares for Palma for Presidency.

HAVANA, Aug. 13.—The local committee of one of the Havana wards recently named General Maximo Gomez as its candidate for president, and Estrada Palma for vice-president. General Gomez has written to the committee saying that he has irrevocably decided not to accept any nomination for the office and adds:

"I believe the best two fitted for president and vice-president are Palma and Maso. Let all Cubans unite on this important matter, and they will have a strong government worthy of Cuba and most fitted to deal with external relations, which in a republic like Cuba will have to be constituted."

An effort is being made by a number of the most representative leaders of the revolution to make Palma the unanimous candidate for the presidency. So far it is claimed that Maso will resign in favor of Palma.

A delegate says that the practical effect of the election law will be that the senate will consist entirely of radicals, for, although the law recognizes the minority, this will be of no effect, because the senatorial electors elected by majorities will outnumber those elected by minorities by two to one, and as each elector can vote for the full number of senators, these will all be elected by electors representing majorities.

RAKED UP A FORTUNE.

Big Roll of Money Surmised to Have Been Fruit of Train Robbery.

Lincoln, Neb., Aug. 10.—Two children playing with rakes on the farm of Joe Lamb, near Hubbard, Neb., yesterday unearthed a roll three inches through of paper money, supposed to contain a modest fortune. The bills were badly rotted, but examination with a magnifying glass disclosed that one was of the \$1,000 denomination, with strong likelihood that others will prove of the same value. The money will be sent to Washington for redemption.

The accepted theory is that the money played a part in the wreck of a passenger train on the Burlington fifteen years ago, in that vicinity, and for the commission of which James Voorhees was convicted and is now serving a long-time sentence in the Nebraska penitentiary. Voorhees loosened the plates, tied a wire to a rail and pulled it out when the train approached, sending several cars into the ditch. During the clearing of the wreck several of the passengers were robbed. It is believed Voorhees then hid the plunder which the children found.

Many Bankrupt Policemen.

CHICAGO, Aug. 10.—Firemen and policemen are taking advantage of the bankruptcy law to such an extent that Chief O'Neill and Chief Musham have had their attention called to the fact. Since Joseph Kipley took a firm stand against the practice of policemen refusing to pay their debts and began bringing the delinquents before the trial board more than sixty police officers have gone through the bankruptcy courts.

INVADER WINS IN LIGHT BREEZE.

International Cup Depends on Character of Wind.

CHICAGO, Aug. 13.—That the Canada cup is in extreme danger of returning to Canada was amply demonstrated yesterday when the Canadian challenger Invader simply romped away from the Cadillac in a light breeze, and beat her over an alleged windward and return 18-knot course, by 6:22. The race showed conclusively that the matter of winning or retaining the cup has come down to a basis of wind. If light weather prevails for a majority of the races, Invader will be hailed by all Canada as the Moses of a new era in yachting circles, on the other side, for Cadillac cannot hope to beat her under such conditions. No more can Invader expect to win over Cadillac in a blow. A ten to fifteen-knot breeze is the only condition in which there can exist the slightest doubt as to the merits of the two yachts.

BRITISH HANDLE BOERS.

Several Engagements Disastrous to Boers.

CAPE TOWN, Aug. 10.—General Hunter Weston's column has had an engagement with the Boers under Commandant Theron at Zuurfontein, Cape Colony. The Boers retired in great confusion into the Graaf Reinel district. Their losses are not known.

An engagement has taken place between the British and Boers northwest of Dordrecht. The British casualties were one killed and one wounded. It is reported that the Boers lost heavily.

The British authorities have received satisfactory reports from the Jamestown and Barkly East districts of Cape Colony. Commandant Fouché's commando has been severely handled by the British columns. The commando has dissolved into small parties.

SHAFFER DISAPPOINTED.

Western Workmen Not Eager to Obey His Orders to Strike.

PITTSBURG, Pa., Aug. 13.—The struggle for mastery between manufacturers and men in the steel industry is now fairly launched, and on the first show of strength advantage is with the former. The general strike order issued by President Shaffer of the Amalgamated association, has so far been obeyed by about 14,000 men, according to the best figures obtainable here. The first two preliminary calls were answered by about 45,000 men, so that the total number now out is in the neighborhood of 60,000.

The strikers made gains here yesterday over their showing of the previous day, and their prospects for further accessions at Wheeling and McKeesport are favorable. The action of the Amalgamated men at Chicago, Joliet, and Bay View in refusing to come out, and their failure to secure any recruits in the Carnegie group, throughout the Kiskiminetas valley and the big plants at Youngstown and Columbus, Ohio, have been markedly disappointing to them.

Invaders Repulsed.

NEW YORK, Aug. 13.—E. Gonzales Esteves, consul-general of Venezuela, has received a cablegram from President Castro of Venezuela, dated Caracas, Aug. 7, which reads:

"Second Colombian invasion defeated completely. Twenty-two thousand patriotic soldiers defend Venezuelan frontier."

"CASTRO."

This blow to the Colombian invasion, Consul Esteves said, would end the insurrection.

A YOUNG LADY'S LIFE SAVED.

At Panama Columbia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy. Dr. Chas. H. Utter, a prominent physician, of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well."
